MAM-A Medical Grade Discs CD-R, DVD, Recordable Blu-ray

Other consumer grade discs use materials to achieve the lowest possible unit cost rather than the highest possible performance required for vital medical applications. MAM-A Medical Grade Archival CD-R, DVD-R, and BD-R discs provide demonstrably superior resistance to environmental degradation compared to other recordable discs. Superior printable surfaces for all thermal and inkjet printers, and Private Hospital Logo silkscreening is also available by request. DICOM compliant, PACS compatible, FDA certified.

all about
communication. collaboration. innovation.

Increasing information. Diminishing resources. Rapidly evolving technology. As the demands of patient care escalate, we confront the real issues of healthcare every day. When you partner with us, you get a healthcare IT solution from a healthcare IT company. Improve communication. Streamline your workflow. And start solving real problems. **Speak to our replacement specialists at Booth 319 during SIIM 2010. allaboutpacs.com**

Digital Imaging Simplified

Sorna provides innovations to simplify the import, export, management, and display of medical records and diagnostic images on portable media:

- Networked DISC publishing systems, powered by reliable **eXpedo** software, streamline the custom creation of patient records through programmed automation.
- **Reviewer** is a multifunctional software suite that imports, exports, acquires, searches for, distributes, deidentifies, reidentifies, DICOM-izes, reports about, integrates, and displays internally and externally generated DICOM and non-DICOM medical images. Every tool you need on one platform.
