Metrasens Leading Magnetic Engineering Expertise Produces the Ferroguard Screener

Expanding our award-winning ferromagnetic product line, the screener provides objective screening of patients and staff, giving you a greater expansion of coverage as you enter ACR Zone 3.

Benefits of Ferroguard Screener

- Unique “**press to screen**” on-demand functionality enables total user control and enables rapid screening of patients without impacting workflow and existing team procedures.
- The screener’s precise and **whole-body** approach ensures the most reliable detection by eliminating user inconsistencies associated with hand-wand screening.

Visit our website for more information, including our architectural design plan and MRI safe video.

New MRI Lighting Reduces Maintenance, Energy Costs

**ETS-Lindgren ZXR
LED Down Light &
Dimmer Switch**

ETS-Lindgren’s Med-Vizion ZXR Down Light is a maintenance-free lighting system rated for 80,000 hours of usage. It offers simple installation with plug-and-play connections. Most importantly, compared to traditional incandescent lighting, the environmentally conscious Med-Vizion lighting offers brighter images with reduced energy consumption, resulting in lower energy bills over time. The optional dimmer switch features a low-voltage plug-and-play interface. One dimmer switch will support up to 16 ZXR Down Light fixtures.

New
AromaTabs™
aromatherapy for the clinical setting

#370 lavender~sandalwood

#371 orange~peppermint

A less invasive, low-cost alternative to sedatives, AromaTabs utilize natural essential oils to help create a calming, relaxing, soothing environment for nervous patients before and during an exam or procedure. Used in MRI, mammography, ultrasound, radiation oncology, and postanesthesia care, AromaTabs help healthcare professionals save time, provide a better patient experience, and improve patient satisfaction. Experience AromaTabs at the **AHRA annual meeting, Booth #823**. Testimonials, studies, and additional information are available at www.beekley.com/MRI/Aromatabs.
