2010 BUYERS' GUIDE

3M™ ChartScriptMD™ Software can be specifically tailored to the needs of radiologists. You can provide findings to referring physicians more quickly while reducing costs at the same time. The 3M software integrates seamlessly with your existing RIS & PACS systems as well as your hospital's centralized dictation system. One screen lets you view images, review prior findings and dictate. And you can choose between traditional dictation and speech recognition.
